LIST OF CONTENTS

Vol. 19, No. 1

V. Soroker and A. Rafaeli — 1 — *In vitro* hormonal stimulation of [^{14}C]acetate incorporation by *Heliothis armigera* pheromone glands

Premjit P. Halarnkar and Gary J. Blomquist — 7 — Partial characterization of the pathway from propionate to acetate in the cabbage looper, *Trichoplusia ni*

K. V. Novozhilov, A. P. Brestkin, A. E. Khovanskikh, E. B. Maizel, S. N. Moralev, E. V. Nikanorova and I. N. Sazonova — 15 — Cholinesterases of aphids—III. Sensitivity of acetylcholinesterases to several inhibitors as a possible phylogenetic character

J. J. Michaille, A. Garel and J. C. Prudhomme — 19 — The expression of five middle silk gland specific genes is territorially regulated during the larval development of *Bombyx mori*

G. Bosquet, C. Guillet, B. Calvez and G. Chavancy — 29 — The regulation of major haemolymph protein synthesis: changes in mRNA content during the development of *Bombyx mori* larvae

Judith H. Willis — 41 — Partial amino acid sequences of cuticular proteins from *Hyalophora cecropia*

Jayne L. Brookman, Norman A. Ratcliffe and Andrew F. Rowley — 47 — Studies on the activation of the prophenoloxidase system of insects by bacterial cell wall components

Svend Olav Andersen — 59 — Enzymatic activities in locust cuticle involved in sclerotization

Karl J. Kramer, Vincent Bork, Jacob Schaefer, Thomas D. Morgan and Theodore L. Hopkins — 69 — Solid state ^{13}C nuclear magnetic resonance and chemical analyses of insect noncuticular sclerotized support structures: mantid oothecae and cocoon silks

Siegfried Hekimi and Michael O'Shea — 79 — Antisera against AKHs and AKH precursors for experimental studies of an insect neurosecretory system

Bruce C. Campbell and Brian M. Unterman — 85 — Purification of DNA from the intracellular symbiotes of *Sitophilus oryzae* and *Sitophilus zeamais* (Coleoptera: Curculionidae)

S. H. Vaandrager, T. B. Haller, W. J. A. Van Marrewijk and A. M. Th. Beenakkers — 89 — Fractionation and kinetic properties of trehalase from flight muscles and haemolymph of the locust, *Locusta migratoria*

Eiji Ohnishi, Masashi Hiramoto, Yoshinori Fujimoto, Katsumi Kakinuma and Nobuo Ikekawa — 95 — Isolation and identification of major ecdysteroid conjugates from the ovaries of *Bombyx mori*

S. J. Yu — 103 — β-Glucosidase in four phytophagous Lepidoptera

109 — Corrigendum

110 — Announcement

Vol. 19, No. 2

M. D. Real and J. Ferré — 111 — Distribution of xanthurenic acid glucoside in species of the genus *Drosophila*

P. Porcheron, M. Moriniere, J. Grassi and P. Pradelles — 117 — Development of an enzyme immunoassay for ecdysteroids using acetylcholinesterase as label

Daizo Koga, Hidehiro Fujimoto, Takushi Funakoshi, Toshihiko Utsumi and Akio Ide — 123 — Appearance of chitinolytic enzymes in integument of *Bombyx mori* during the larval–pupal transformation. Evidence for zymogenic forms

Rolf Graf and Hans Briegel — 129 — The synthetic pathway of trypsin in the mosquito *Aedes aegypti* L. (Diptera: Culicidae) and *in vitro* stimulation in isolated midguts

S. M. W. GOLD and K. G. DAVEY — 139 — The effect of juvenile hormone on protein synthesis in the transparent accessory gland of male *Rhodnius prolixus*

LEIGH H. ENGLISH and THERESA L. READDY — 145 — Delta endotoxin inhibits a phosphatase in midgut epithelial membranes of *Heliothis virescens*

KATIA C. GONDIM, PEDRO L. OLIVEIRA, HELOISA S. L. COELHO and HATISABURO MASUDA — 153 — Lipophorin from *Rhodnius prolixus*: purification and partial characterization

B. S. LANNE, P. IVARSSON, P. JOHNSSON, G. BERGSTRÖM and A.-B. WASSGREN — 163 — Biosynthesis of 2-methyl-3-buten-2-ol, a pheromone component of *Ips typographus* (Coleoptera: Scolytidae)

RENEE A. KRUEGER, KARL J. KRAMER, THEODORE L. HOPKINS and ROY D. SPEIRS — 169 — *N*-β-Alanyldopamine levels and synthesis in integument and other tissues of *Manduca sexta* (L.) during the larval–pupal transformation

G. FABRIÁS, G. ARSEQUELL and F. CAMPS — 177 — Sex pheromone precursors in the processionary moth *Thaumetopoea pityocampa* (Lepidoptera: Thaumetopoeae)

MATS W. JOHANSSON and KENNETH SÖDERHÄLL — 183 — A cell adhesion factor from crayfish haemocytes has degranulating activity towards crayfish granular cells

LORNA SHAMPENGTONG and KIM PING WONG — 191 — An *in vitro* assay of 20-hydroxyecdysone sulfotransferase in the mosquito, *Aedes togoi*

DENNIS R. NELSON, MERTXE DE RENOBALES, LAWRENCE A. DWYER, ANTHONY C. ZAMBONI, CHARLOTTE L. FATLAND and GARY J. BLOMQUIST — 197 — Novel very long-chain methyl-branched alcohols and their esters, and methyl-branched alkanes in pupae of the cabbage looper, *Trichoplusia ni* (Hubner)

MERTXE DE RENOBALES, DENNIS R. NELSON, ANTHONY C. ZAMBONI, MARILYN E. MACKAY, LAWRENCE A. DWYER, MARIE O. THEISEN and GARY J. BLOMQUIST — 209 — Biosynthesis of very long-chain methyl-branched alcohols during pupal development in the cabbage looper, *Trichoplusia ni*

DAVID W. SEVERSON, JUDY L. WILLIAMSON and JUDD M. AIKEN — 215 — Caste-specific transcription in the female honey bee

Vol. 19, No. 3

J. T. CHRISTELLER, B. D. SHAW, S. E. GARDINER and J. DYMOCK — 221 — Partial purification and characterization of the major midgut proteases of grass grub larvae (*Costelytra zealandica*, Coleoptera: Scarabaeidae)

J. T. CHRISTELLER and B. D. SHAW — 233 — The interaction of a range of serine proteinase inhibitors with bovine trypsin and *Costelytra zealandica* trypsin

MARGARET B. SCHWARTZ, THOMAS J. KELLY, CHARLES W. WOODS and RICHARD B. IMBERSKI — 243 — Ecdysteroid fluctuations in adult *Drosophila melanogaster* caused by elimination of pupal reserves and synthesis by early vitellogenic ovarian follicles

J. E. YOUNG, E. OTTO, R. A. FRIDELL, H. JOHANSEN, M. ROSENBERG and G. MARONI — 251 — Metal-regulated synthesis of a bacterial galactokinase in *Drosophila* larvae

M. E. CHAMBERLIN and K. A. JONES — 257 — Inhibition of palmitoyl carnitine oxidation by 3-mercaptopropionic acid in mitochondria isolated from tobacco hornworm (*Manduca sexta*) midgut

AKIHIRO SHIRAISHI and SHUNJI NATORI — 261 — Humoral factor activating the *Sarcophaga* lectin gene in cultured fat body

RADHA PANT and D. RAMANA — 269 — Cellulolytic activity in a phytophagous lepidopteran insect *Philosamia ricini*: the origin of the enzymes

SHOGO MATSUMOTO, MARK R. BROWN, JOE W. CRIM, STEVEN R. VIGNA and ARDEN O. LEA — 277 — Isolation and primary structure of neuropeptides from the mosquito, *Aedes aegypti*, immunoreactive to FMRFamide antiserum

WALTER R. TERRA and BEATRIZ P. JORDÃO — 285 — Final digestion of starch in *Musca domestica* larvae. Distribution and properties of midgut α-D-glucosidases and glucoamylase

YUKIHIRO SATO and OKITSUGU YAMASHITA — 293 — Post-translational processing in the synthesis of egg-specific protein in the silkworm, *Bombyx mori*

Michel Brehélin, Latifa Drif, Lucienne Baud and Noël Boemare	301	Insect haemolymph: cooperation between humoral and cellular factors in *Locusta migratoria*
Robert M. Greenberg, Jörg Striessnig, Astrid Koza, Piroska Devay, Hartmut Glossmann and Linda M. Hall	309	Native and detergent-solubilized membrane extracts from *Drosophila* heads contain binding sites for phenylalkylamine calcium channel blockers
S. N. Thompson, R. W-K. Lee and N. E. Beckage	323	Characterization of the ^{31}P NMR spectrum of *Manduca sexta* and effects of antimetabolites
Xiuhua Wang, Ernest S. Chang and John D. O'Connor	327	Purification of the *Drosophila* Kc cell juvenile hormone binding protein

Vol. 19, No. 4

N. S. Eisen, V. F. Fernandes, W. R. Harvey, D. D. Spaeth and M. G. Wolfersberger	337	Comparison of brush border membrane vesicles prepared by three methods from larval *Manduca sexta* midgut
Janis L. McSwain, James S. Tucker, Richard C. Essenberg and John R. Sauer	343	Brain factor induced formation of inositol phosphates in tick salivary glands
R. J. Martin, A. P. Jahagirdar and R. G. H. Downer	351	Partial characterization of *N*-acetyltransferase activity from cerebral ganglia and Malpighian tubules of *Periplaneta americana*
Douglas K. Bergman and G. Michael Chippendale	361	*In vitro* release of lipophorin from the fat body of nondiapause and diapause larvae of the southwestern corn borer, *Diatraea grandiosella*
Peter C. Kulakosky and William H. Telfer	367	Kinetics of yolk precursor uptake in *Hyalophora cecropia*: stimulation of microvitellin endocytosis by vitellogenin
Svend Olav Andersen	375	Enzymatic activities involved in incorporation of *N*-acetyldopamine into insect cuticle during sclerotization
Clélia Ferreira and Walter R. Terra	383	Spatial organization of digestion, secretory mechanisms and digestive enzyme properties in *Pheropsophus aequinoctialis* (Coleoptera: Carabidae)
G. N. Goulielmos and S. N. Alahiotis	393	Induction of malate dehydrogenase and acetylcholinesterase by 20-hydroxyecdysone and heat shock in *Drosophila* ovaries
Yoichi Aso, Yasuo Imamura and Nobuyuki Yamasaki	401	Further studies on DOPA quinone imine conversion factor from cuticles of *Manduca sexta* (L.)
José M. C. Ribeiro, Govind B. Modi and Robert B. Tesh	409	Salivary apyrase activity of some Old World phlebotomine sand flies
Maria Elena de Lima, Marie France Martin-Eauclaire, Bernard Hue, Erwan Loret, Carlos Ribeiro Diniz and Hervé Rochat	413	On the binding of two scorpion toxins to the central nervous system of the cockroach *Periplaneta americana*
D. Benke and H. Breer	423	Endogenous low molecular weight inhibitors of cholinergic binding sites
Charles A. Lessman, William S. Herman, David A. Schooley, Leslie W. Tsai, B. John Bergot and Fred C. Baker	431	Detection of juvenile hormone I, II and III in adult monarch butterflies (*Danaus plexippus*)
Shanmugam Balabaskaran, Seow Shan Chuen and Sekaran Muniandy	435	Glutathione S-transferase from the diamond back moth (*Plutella xylostella* Linnaeus)

Vol. 19, No. 5

Davy Jones	445	Protein expression during parasite redirection of host (*Trichoplusia ni*) biochemistry
K. Hagopian and E. J. Duke	457	Effects of adenine on the stability and expression of xanthine dehydrogenase from *Drosophila virilis*
K. Hagopian and E. J. Duke	463	Selection of an adenine resistant strain of *Drosophila melanogaster* with an altered form of xanthine dehydrogenase

A. Schneider, R. J. Wiesner and M. K. Grieshaber — 471 — On the role of arginine kinase in insect flight muscle

Geoffrey D. Wheelock and Jeffrey G. Scott — 481 — Simultaneous purification of a cytochrome *P*-450 and cytochrome b_5 from the house fly, *Musca domestica* L.

Pedro Lagerblad Oliveira, Marìlvia Dansa de Alencar Petretski and Hatisaburo Masuda — 489 — Vitellin processing and degradation during embryogenesis in *Rhodnius prolixus*

V. L. Souliotis and G. J. Dimitriadis — 499 — Identification and molecular analysis of the cuticle protein genes of *Dacus oleae*

T. H. Czapla, T. L. Hopkins and K. J. Kramer — 509 — Catecholamines and related *o*-diphenols in the hemolymph and cuticle of the cockroach *Leucophaea maderae* (F.) during sclerotization and pigmentation

Minh-Tam B. Davis and James A. Svoboda — 517 — Genes differentially expressed during pupal–adult neurogenesis in *Manduca sexta*

Ezra Dunkelblum, Hava Mamane, Miriam Altstein and Zeev Goldschmidt — 523 — Acetylation of alcohols in the pheromone biosynthesis of the tomato looper, *Chrysodeixis chalcites* (Lepidoptera: Noctuidae)

I — Announcement

Vol. 19, No. 6

André Vachereau and José M. C. Ribeiro — 527 — Immunoreactivity of salivary gland apyrase of *Aedes aegypti* with antibodies against a similar hydrolase present in the pancreas of mammals

J. I. Collett — 535 — Characterization of the peptidases of *Calliphora*: many features allow the utilization of small peptides as an amino acid reservoir

Daniela Marchini, Luigi F. Bernini and Romano Dallai — 549 — β-*N*-Acetylhexosaminidases in the secretion of the female reproductive accessory glands of *Ceratitis capitata* (Diptera)

Rick Newitt and Bruce Hammock — 557 — *In vivo* and *in vitro* effects of epofenonane on juvenile hormone esterase activity in tissues of last stadium larvae of *Trichoplusia ni*

Mats W. Johansson and Kenneth Söderhäll — 573 — A peptide containing the cell adhesion sequence RGD can mediate degranulation and cell adhesion of crayfish granular haemocytes *in vitro*

Svend Olav Andersen — 581 — Oxidation of *N*-β-alanyldopamine by insect cuticles and its role in cuticular sclerotization

H. Nichol and M. Locke — 587 — The characterization of ferritin in an insect

Seppo Turunen — 603 — Absorption and metabolism of dietary myo-inositol in *Pieris brassicae*

Vol. 19, No. 7

B. R. Thomas, M. Yonekura, T. D. Morgan, T. H. Czapla, T. L. Hopkins and K. J. Kramer — 611 — A trypsin-solubilized laccase from pharate pupal integument of the tobacco hornworm, *Manduca sexta*

G. Arsequell, G. Fabriàs and F. Camps — 623 — Inhibition of a Δ-11 desaturase in *Spodoptera littoralis* by 12,13-methylenehexadec-12-enoic acid

Kerstin Andersson, Shao-Cong Sun, Hans G. Boman and Håkan Steiner — 629 — Purification of the prophenoloxidase from *Hyalophora cecropia* and four proteins involved in its activation

Russell A. Jurenka and Wendell L. Roelofs — 639 — Characterization of the acetyltransferase used in pheromone biosynthesis in moths: specificity for the *Z* isomer in Tortricidae

Miriam Altstein, Miriam Harel and Ezra Dunkelblum — 645 — Effect of a neuroendocrine factor on sex pheromone biosynthesis in the tomato looper, *Chrysodeixis chalcites* (Lepidoptera: Noctuidae)

Shogo Matsumoto, Mark R. Brown, Akinori Suzuki and Arden O. Lea — 651 — Isolation and characterization of ovarian ecdysteroidogenic hormones from the mosquito, *Aedes aegypti*

JOSÉ CLÁUDIO DEL PINO, VERA MARIA TREIS TRINDADE, FÁTIMA GUMA and ELENA AIDA BERNARD — 657 — Biochemical studies of ovary glycoproteins of the cattle tick *Boophilus microplus*

WENDELL L. COMBEST and LAWRENCE I. GILBERT — 663 — Particulate associated cAMP-dependent protein kinase activity in the brain of the tobacco hornworm, *Manduca sexta*

MOTOKO YAGO — 673 — Enzymic synthesis of papiliochrome II, a yellow pigment in the wings of papilionid butterflies

ANNA GERENDAY, YANG-JA PARK, QUE LAN and ANN MARIE FALLON — 679 — Expression of a heat-inducible gene in transfected mosquito cells

MIGUEL MEDINA and CARMEN G. VALLEJO — 687 — A serine proteinase in *Drosophila* embryos: yolk localization and developmental activation

C. NOAH KOLLER, TARLOCHAN S. DHADIALLA and ALEXANDER S. RAIKHEL — 693 — Selective endocytosis of vitellogenin by oocytes of the mosquito, *Aedes aegypti*: an *in vitro* study

A. C. KOTZE and H. A. ROSE — 703 — Purification and properties of glutathione *S*-transferases from the larvae of the Australian sheep blowfly, *Lucilia cuprina* (Wiedemann)

Vol. 19, No. 8

SAAD M. M. ISMAIL and FUMIO MATSUMURA — 715 — Influence of pesticides and neuroactive amines on cAMP levels of two-spotted spider mite (Acari: Tetranychidae)

STEPHEN D. MENKE and NANCY S. PETERSEN — 723 — Protein synthesis during flight muscle development in normal and *wupB* indirect flight muscles of *Drosophila melanogaster*

YASUHIRO NAKAYAMA, ANDREW SPIELMAN and ANTHONY A. JAMES — 731 — Protein synthesis induced by heat in an *Ixodes* tick

ROBERT T. MASON, HENRY M. FALES, TAPPEY H. JONES, LOIS B. O'BRIEN, TERRY W. TAYLOR, CHARLES L. HOGUE and MURRAY S. BLUM — 737 — Characterization of fulgorid waxes (Homoptera: Fulgoridae: Insecta)

DAVID F. GRANT, DANIEL M. BENDER and BRUCE D. HAMMOCK — 741 — Quantitative kinetic assays for glutathione S-transferase and general esterase in individual mosquitoes using an EIA reader

KARL J. KRAMER, THOMAS D. MORGAN, THEODORE L. HOPKINS, ALLYSON M. CHRISTENSEN and JACOB SCHAEFER — 753 — Solid-state ^{13}C-NMR and diphenol analyses of sclerotized cuticles from stored product Coleoptera

PENSRI WHITING and LAURENCE DINAN — 759 — Identification of the endogenous apolar ecdysteroid conjugates present in newly-laid eggs of the house cricket (*Acheta domesticus*) as 22-long-chain fatty acyl esters of ecdysone

MARGARET GRAPES, PENSRI WHITING and LAURENCE DINAN — 767 — Fatty acid and lipid analysis of the house cricket, *Acheta domesticus*

ALBERTO GUILLEN, AMADOR HARO, JOSE L. NIETO and ANGEL M. MUNICIO — 775 — Solubilization of adenylate cyclase from *Ceratitis capitata* neural membranes and incorporation into liposomes

D. BAGHDASSARIAN-CHALAYE, D. TORU, J. M. GAVARET and M. PIERRE — 781 — Protein phosphorylation in the larval epidermis of *Locusta migratoria*: role of cyclic AMP and 20-hydroxyecdysone

YANNICK LE PARCO, ANDRÉ LE BIVIC, BERNARD KNIBIEHLER, CHRISTIAN MIRRE and JEAN-PIERRE CECCHINI — 789 — DCgl αIV collagen chain of *Drosophila melanogaster* is synthesized during embryonic organogenesis by mesenchymal cells and is deposited in muscle basement membranes

SVEND OLAV ANDERSEN — 803 — Investigation of an *ortho*-quinone isomerase from larval cuticle of the American silkmoth, *Hyalophora cecropia*

RIK VAN ANTWERPEN, HERMAN J. A. WYNNE, DICK J. VAN DER HORST and AD M. TH. BEENAKKERS — 809 — Binding of lipophorin to the fat body of the migratory locust
